389 Eureka State Assessment Review for Budget Considerations

389 Eureka District Summary

(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

Our teachers, students, and families face a number of challenges in ensuring student proficiency on assessments. Some of those challenges in our School District include:

- High percentage/number of free and reduced students and increased poverty rate
- Though not necessarily identified as at-risk using the free and reduced lunch calculation, a number of students are at a high risk of falling behind
- Difficulty in retaining and attracting highly qualified teachers and replacing teachers as they retire
- High levels or increased levels of student trauma (Adverse Childhood Experiences, ACE Study)
- High numbers or increasing numbers of single parent families
- High levels or an increase in absenteeism among our student population
- An increasing level of social emotional challenges and needs of students
- It is difficult to encourage a student's highest performance on an assessment that does not impact their future.
- We believe using one assessment score is not an accurate measure of student success, especially because assessments are written in a way to avoid 100% success for every assessment participant.

(B) Identify the budget actions that should be taken to address and remove those barriers.

The school superintendent and board are approving a budget that will meet the needs of all students in all areas. (Support materials, curriculum, staffing needs. etc.)

- Increased salary to recruit and retain high quality certified and classified staff
- Maintain low teacher/pupil ratio for greater individualized instruction
- Allocating budget to focus on prevention, identification, and intervention concerning trauma and mental health issues

(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if

the budget actions would be implemented.

We measure growth each year and document in our KESA plans our success on a variety of student success factors. We emphasize growth and strive to lead the world in the success of each student. Although we do this and are proud of the work we do, many factors make it impossible to estimate a time that every student will achieve a definition of grade level proficiency. Such factors include:

- While assessment scores are one measure, our district does not believe that student assessment scores should be the sole measure of student proficiency
- Many of the factors that affect student success, such as trauma, poverty, mental health and student disabilities, are out of the local board's control, so giving a time estimate on things that consistently change, or are under the control of other agencies, is not a realistic practice of a local school board.

Marshall Elementary Building State Assessment Review

District: <u>389 Eureka</u> School: <u>Marshall Elementary</u> Building Number: <u>5287</u> Grades Served: <u>Pre-K through 6</u>

(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

Our teachers, students, and families face a number of challenges in ensuring student proficiency on assessments. Some of those challenges at this school include:

- High percentage/number of free and reduced students and increased poverty rate
- Though not necessarily identified as at-risk using the free and reduced lunch calculation, a number of students are at a high risk of falling behind
- High levels or increased levels of student trauma (Adverse Childhood Experiences, ACE Study)
- High numbers or increasing numbers of single parent families
- An increasing level of social emotional challenges and needs of students
- We believe using one assessment score is not an accurate measure of student success, especially because assessments are written in a way to avoid 100% success for every assessment participant.

(B) Identify the budget actions that should be taken to address and remove those barriers.

The school superintendent and board are approving a budget that will meet the needs of all students in all areas. (Support materials, curriculum, staffing needs. etc.)

- Increased salary to recruit and retain high quality certified and classified staff
- Increased funding and time for staff development
- Maintain low teacher/pupil ratio for greater individualized instruction

(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.

We measure growth each year and document in our KESA plans our success on a variety of student success factors. We emphasize growth and strive to lead the world in the success of each student. Although we do this and are proud of the work we do, many factors make it impossible to estimate a time that every student will achieve a definition of grade level proficiency. Such factors include:

- While assessment scores are one measure, our school does not believe that student assessment scores should be the sole measure of student proficiency
- Many of the factors that affect student success, such as trauma, poverty, mental health and student disabilities, are out of the local board's control, so giving a time estimate on things that consistently change, or are under the control of other agencies, is not a realistic practice of a local school board.

Eureka Junior-Senior High School Building State Assessment Review

District: <u>389 Eureka</u> School: <u>Eureka Junior-Senior High School</u> Building Number: <u>5268</u> Grades Served: <u>7-12</u>

(A) Identify the barriers that must be overcome for each student to achieve grade level proficiency on assessments.

Our teachers, students, and families face a number of challenges in ensuring student proficiency on assessments. Some of those challenges at this school include:

- Difficulty in scheduling and finding more time to provide teacher/staff collaboration that would support improved student learning
- High percentage/number of free and reduced students and increased poverty rate
- Though not necessarily identified as at-risk using the free and reduced lunch calculation, a number of students are at a high risk of falling behind
- Difficulty in retaining and attracting highly qualified teachers and replacing teachers as they retire
- High levels or increased levels of student trauma (Adverse Childhood Experiences, ACE Study)
- High levels or an increase in absenteeism among our student population
- An increasing level of social emotional challenges and needs of students
- It is difficult to encourage a student's highest performance on an assessment that does not impact their future.
- We believe using one assessment score is not an accurate measure of student success, especially because assessments are written in a way to avoid 100% success for every assessment participant.

(B) Identify the budget actions that should be taken to address and remove those barriers.

The school superintendent and board are approving a budget that will meet the needs of all students in all areas. (Support materials, curriculum, staffing needs. etc.)

- Increased salary to recruit and retain high quality certified and classified staff
- Increased funding and time for staff development
- Maintain low teacher/pupil ratio for greater individualized instruction
- Allocating budget to focus on prevention, detection and intervention concerning trauma and mental health issues

(C) Identify the amount of time the board estimates it will take for each student to achieve grade level proficiency on the state assessments if the budget actions would be implemented.

We measure growth each year and document in our KESA plans our success on a variety of student success factors. We emphasize growth and strive to lead the world in the success of each student. Although we do this and are proud of the work we do, many factors make it impossible to estimate a time that every student will achieve a definition of grade level proficiency. Such factors include:

- While assessment scores are one measure, our school does not believe that student assessment scores should be the sole measure of student proficiency
- Similar to how other professionals, such as doctors, lawyers, etc, cannot ensure 100% success due to a variety of factors and obstacles, we will be unable to achieve 100% proficiency
- Many of the factors that affect student success, such as trauma, poverty, mental health and student disabilities, are out of the local board's control, so giving a time estimate on things that consistently change, or are under the control of other agencies, is not a realistic practice of a local school board.
